

On the Subject of the Wire Placement

Sometimes, the wire may look like a face, calming you down... and then you explode.

- This module contains a grid of wires.
- There are always 8 wires on it.
- Wires can be red, blue, yellow, black or white.
- Cut a wire if it is a specific color and is connected to a specific spot on the grid.

Cut if...	
Color	is connected to
Yellow	D2
Blue	A2
White	D3
White	B2
Red	A1
Blue	C3
Black	B1
Red	C4
Yellow	A3
Yellow	D1

Cut any wire that touches an area that has the same color as the wire. Ignore the areas with a cross in them.

The possible wire colors are red, blue, yellow, black and white.

A	B	C	D	
		X		1
		X		2
	X			3
X	X		X	4
